

This is a must see video. It interviews those involved with the F-105. From a long list of pilots, to crew chiefs, to rescue guys. They tell it the way it was. We even have our own Billy Sparks Pack member John “Thud” Casper in the interviews.

Make sure to watch not only the documentary but the outtakes as well. It was the winner of the “Best Film” at the 2018 GI Film Festival in San Diego last year. Directed by Mark Vizcarra (who flew F-14s and who’s dad (Vic) is interviewed in the film).

Here is the main Thud Pilots site:

Update.....This is from Gary Barnhill, who is one of the pilots interviewed in the documentary:

The video THUD PILOTS is free with Amazon Prime.
